EXPERIENCE

CarMax

June 2021 – Aug 2021

Software Engineer Intern

- Developed and designed a user interface at CarMax, #36 on *Fortune 100 Best Companies to Work for*, that a partner team will use to manage their day-to-day agent activity
- Applied software engineering technologies including React JS, CSS, Node JS, Express JS, MongoDB, and Mongoose to develop the frontend and backend of the application with my team
- Operated in a fast-paced Agile environment and was given deliverables for the 10-week period, which I successfully completed in one-week sprints

ProductHub

July 2020 – Sept 2020

Web Development Intern

- Collaborated with 3+ developers to create a user-friendly and visually appealing website from scratch using React JS and CSS and generated design ideas with the engineering department
- Implemented successful web application development enhancements each week using effective time management, which resulted in improved web functionality and elevated user experience for potential customers
